ABOUT

As a lifelong gamer and now a software developer, I am committed to creating engaging app and web-based experiences that leverage my skills with storytelling and technology.

SKILLS

HTML/ CSS/ JavaScript/ jQuery/ Node.js/Express.js/ React.js/Flask /Python/PostgreSQL/ MongoDB/Git/ Github

DEVELOPMENT EXPERIENCE

Software Engineering Fellow | General Assembly, Nov 2019 - Feb 2020

Three-month, 500-hour full-time and full-stack program conducted in a remote setting, providing experience with the latest front- and back-end programming languages, tools, and methodologies. Projects include:

Asteroid Assault
https://pages.git.generalassemb.ly/mlwelbourn/Asteroid-Assault/gameOver.html
Created a JavaScript based vintage asteroid dodger video game utilizing canvas. This project showcases object oriented programming as well as keen problem solving in order to create a polished user experience. *Built using: HTML/CSS/JavaScript/Canvas*

App-etite
https://bon-app-etite.herokuapp.com/
Created a full stack app using node.js/express.js and mongoose/mongo.db. The app is designed to solve the problem of keeping track of places you travel and the restaurants you've visited. You can also track the meals you had at each restaurant you've visited and rate said restaurants and meals. *Built using: Express/MongoDB/JavaScript*

PinPals
https://bon-app-etite.herokuapp.com/
Created a full stack app utilizing the Leaflet API. The app allows users to create pins on the map and provide a title and description for an event they're hosting. Other users can see this pin and respond by connecting to the chatroom attached to it and make plans to meet up.. *Built using: React/Flask/PostgreSQL*

EDUCATION

General Assembly - *Software Engineering Immersive*
Fort Lewis College, Durango, CO — B.A. *Business Administration*

PERSONAL

Contestant on NBC's "The Titan Games", Ragtime Pianist, Multiple Bodybuilding Titles, Competitive Ping-Pong Player
